

MERUELO FAMILY CENTER FOR CAREER DEVELOPMENT

As we look for ways to make data more accessible to students, at the end of each summer break the Center for Career Development surveys our returning students asking about any summer experience in which they engaged in over the past summer. This information is utilized in numerous ways:

- Creation of a **Summer Experience Database** set for students to explore experiences of other students
- Creation of a **Summer Networking Directory** for students to connect with other students who participated in an experience of interest

The survey is administered via Qualtrics and sent to all rising sophomores, juniors and seniors. For the Database all respondents are included. For the Networking Directory any student willing to talk with another student about their experience is included. Here is the link to our site: <https://undergradcareers.nd.edu/opportunities/explore-summer-experiences/>

Below are screen shots of the information provided to students for each site.

2019-21 Summer Experience Database

Use the filters on the left to find summer experiences that previous students have participated in to get ideas for your next summer experience.
